

Servoactionari Panasonic de inalta performanta la preturi competitive

Noua familie **MINAS A6** de servoactionari brushless de la **Panasonic** integreaza cele mai noi tehnologii in domeniul controlului de miscare pentru a garanta controlul optim al miscarii, cu minimum de efort din partea utilizatorului.

Performate:

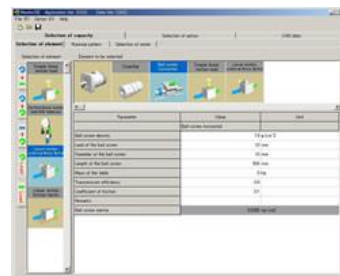

- **Servomotoare compacte** care integreaza encoder absolut cu rezolutie de 23biti (8388608)
- **Port de programare mini-USB**
- **Software de programare PANATERM** disponibil gratuit
- Facilitate de **autotuning** dinamic, in sarcina
- **Filtru** pentru eliminarea vibratiilor
- Detectarea si eliminarea frecventelor de rezonanta ale sistemului
- Grad de protectie IP65, ax oil seal

MSELECT – utilitar software pentru dimensionare actionarii, disponibil gratuit.

Permite alegerea motorului de actionare in functie de aplicatie, prin intermediul unui meniu intuitiv.
